

Despite the current grim outlook for the Spanish economy as a whole, there are still substantial public funds available to support R&D projects.

We are providing services to clients in the Valencia and Castellón Communities that include:

- Analysis of our clients' funding needs and in-house R&D capacities.
- Assistance in the selection of suitable funding schemes.
- Search of international project partners.
- Preparation of funding applications, including R&D project plan and state-of-the-art analysis.
- Assistance in R&D project management and execution.
- Assistance in the expenditure justification process as required by the funding scheme procedures.

Please contact us under info@breezesolve.com to obtain further information and an initial quote related to your R&D project funding needs.
